Declaration

- The user manual includes all the information of safe and correct operation instruction. To avoid accident and product damaged, please make sure go through all the content carefully before using the product.
- Please keep the product away from high temperature, humid and dusty environment.
- Do not drop or crash the product.
- Do not cut off the device when it is formatting, or upgrading, otherwise it will cause operation system error.
- Do not dismantle the device. Do not clean it by alcohol, thinner and Benzene.
- We keep the right to upgrade and modify the product.
- Disclaimer: we only take the responsibility to provide the warranty and after service. The users have to take care of their data in the device by themselves. We do not responsible for any data or related lost.
- The product is not water-proof.
- All the pictures in the instruction are just for reference.

1.Connector

Micro-USB Power: Connect with TV USB port for charge the unit.

- **USB 2.0 HOST:** Connect with other USB device.
- **USB OTG:** Date transfer with PC, or connect USB device.
- HDMI: High Definition Multimedia Interface Output
- Micro SD: Support expanded 2GB-32GB TF card

2. Device connection Instruction

- a) Take out the device insert into your TV HDMI port(if there is no enough space around HDMI interface for MK802IIIS, please use HDMI extend cable), make sure source is HDMI input mode.(Refer to TV set user manual).
- b) Power supply connection: take out Micro USB cable to USB cable, connect the MK802IIIS with TV via this cable; If the TV USB port can't provide enough current, please take USB power supply.(Any USB power supply among 5V/1A to 5V/2A are available).
- c) Suggest using 2.4G wireless keyboard or mouse. Plug 2.4G receiver on USB Host connector, if only mouse plugged, the device will provide soft keyboard during operation; If the device detected the physical keyboard, the soft keyboard will be hidden automatically.
- d) Mouse left button for "ok", right button for "return", rolling for page up and page down, Keep holding left button to drag icon or copy/paste file. Keep holding middle button to pop up properties.

3. Boot state

After powered around 10 seconds, the boot screen would appear.

After around 30 seconds, device would access to main screen;

4. Main Screen Introduction

4.1 Move/Delete desktop icon

Long-press any icon in the main menu, you could put it in any position as you like, at the same time you could put the other apps shortcut to the desktop.

Long press the icon and move it to the right above "×" and loosen, then you could delete it

Move your cursor to any space and drag towards left or right for page rolling. Also you can use the mouse wheel for rolling page.

4.2 Function column

| 🖞 USB | | |
| 🕀 Sound | | |
| Display | No. and the second seco | |
| 🖵 Screen | | |
| Storage | | |
| 🖻 Apps | | |
| PERSONAL | | |
| | ⊕ 🛛 | 15:31 💎 |

5.1 WIFI Setting

| WIRELESS & NETWORKS | | Wi-Fi is already turned on. wifi is enabled, click to turn it off | |
|---------------------|-------|--|----|
| 🗢 Wi-Fi | ON ON | Rikomagic | - |
| More | | Connected | ₹. |

When opened the WIFI, the MK802 IIIS will auto search available wireless router signals within 20 meters, user just choose a router and input correct password to connected network.

5.2 Ethernet Setting

If there is no WIFI in the house, suggest to connect a USB LAN adapter (please select right matched USB LAN adapter) to setting Ethernet. Setting method: Click "setting" \rightarrow "More" \rightarrow "Ethernet" \rightarrow tick "Use Ethernet", then the Ethernet setting finished.

5.3 Portable host pot

If connected the device with Ethernet (not WiFi), then open portable host pot function, you could regard MK802 IIIS as an wireless AP.

5.4 Bluetooth (Optional, just available for MK802 IIIS-Blue tooth)

Bluetooth is a wireless technology standard for exchanging data over short distances (using short-wavelength radio transmissions in the ISM band from 2400–2480 MHz) from fixed and mobile devices, creating personal area networks (PANs) with high levels of security.

Open Bluetooth settings--> Scan and search equipment-->select a device, input Bluetooth wireless password (if required)-->confirm. Then complete the Bluetooth pairing.

Notice:

- Some equipment, for example, Bluetooth headset maybe have a fixed password (like 000), then you must input corresponding password.
- Some equipment without testing or without Bluetooth SIG examination and approval, may not compatible with MK802IIIS.

5.5 PPPOE Setting

If the network need dial-up, then click PPPOE Settings and input account and password. Click "Setting \rightarrow "More" \rightarrow "PPPOE Settings" \rightarrow input account and password.

5.6 USB

🖞 USB

For exchange data between the MK802 IIIS and PC.

Specific operation steps :

- 1. Equipment connection: take out the Micro USB to USB cable, connect the machine with PC through this cable , at same time, connect the machine with TV through HDMI cable.
- Settings: After device access to the main screen , click Settings → USB → Connect to PC, press confirm. After the device access to USB mode, turn on USB storage. Now your computer could find the device and you can copy/paste files freely.

5.7 Sound

Sound This is for Sound settings;

Volume: Control volume level;

Operate prompt tone: Setting prompt tone during operating;

Screen saver sound: Setting screen saver sound.

5.8 Display

Font size: Setting font size according to their own request;

5.9 Screen

🖳 Screen

This is for Screen settings:

- 1. Screen ratio: Used for adjusting screen ratio.
- 2. Output Interface: Default HDMI
- 2. HDMI mode: User can setting corresponding output resolution according to the TV. Normally system will auto detective.

Rikomagic MK802 IIIS User Manual

| 720x480p-60 | 0 |
| Cancel | |

5.10 Storage

In this option, user could view local storage space and external storage space, besides, user even can uninstall or format storage equipment.

Notice: System divided the whole storage into seven partition, only two partition visible, the other five partition has been occupied by Android system which is invisible. The balance space is equal to the sum of two partitions.

5.11 Apps

In this option, user could view installed and running apps, at same time could check DDR parameters.

5.12 Security

User can set password according to their request.

5.13 Language & input

- 1. User can set the language for system menus according to their Country or preference(60 languages supported)
- 2. System default support Chinese and English, user need manual installing other input methods.
- 3. User could set keyboard and mouse cursor speed and simulated mouse step length at here.

5.14 Backup & reset

Backup: If there are some important files or apps inside, you'd better choose backup in case files lost.

Reset: If choose this option, and confirm, system will back to factory setting, all the user's settings and apps will missing, (Not suggest);

5.15 Date & time

Since there is no battery inside, the date and time setting can't be saved.

Suggest setting to use the network synchronization time, as long as the network connected, then the date and time will be with the network synchronization.

5.16 Developer options

USB debugging: During connecting with PC to exchange data, please open this option;

5.17 About device

User can check system info here.

6. Browse /Copy Files

Fxit Back Next -**Internal Flash** SD Card SD Network Places 口) 口)) ① 15:40 💎 ÷ \square

1. Open file management on the desktop.

Internal Flash: Check internal storage space

SD Card: If TF card inside, icon will be highlight

USB: If USB device (HDD, U-disk) connected, the icon will be highlight.

Network Places: Through this option, user can access to other PC to find files and playback.

File Copy

Long-press a file or folder will pop-up a menu, including: Copy, Delete, Move, Paste, Rename options, if no need execute operation, just click "cancel".

7. Install/Uninstall Apps

MK802IIIS support many commonly used third-party apps. You can install or uninstall apps freely, there are two methods available for installing Apps:

7.1 Online installation

Please login Google Play store or other Android marketing to download Apps (User should have Gmail account if download from Google play store), After download system will remind you to install the Apps, just click install according to the system prompt.

7.2 Local installation

User also can copy app from computer to U disk or TF card, insert the U disk or TF card to your device, just click the APK icon to install according to the system prompt.

7.3 Uninstall Apps

Click Settings \rightarrow Apps, click an Apps you want to uninstall, the uninstall window will pop up click uninstall to uninstall.

If you don't want to uninstall just exit.

13. Switch input methods

Click the keyboard icon at the right-bottom status bar from desktop;

All the installed methods will display as below picture, and you can choose one of you prefer:

14. System recovery/update

If your MK802 IIIS has following issues, please solve these issues by recovery/update methods.

- 1. If you need update to the latest firmware,
- 2. After boot, there is no signal;
- 3. There is only boot screen;
- 4. System running very slow, crashing;
- 5. Can't find the wireless network equipment, or can't connect wireless;
- 6. When installation apps, player loss power unexpected and cant boot up.
- 7. TF card update failed and can't boot again etc.

Recovery/update steps:

and recovery firmware,(img file)

Firstly, download recovery tool from official website or get from sales.

RKBatchTool RKBatchTool

to double click,

Download, decompression the folder and find below screen will pop out, then add img file.

Notice:

- 1. Same computer just need install driver for one time;
- 2. First turn on the unit after recovery/update will cost more long time, and even occur some lag issue, it's normal since internal apk file need be decompressed and occupy RAM, after 5 minutes, then system running well. So don't worry about that.

Question & Answer

- Screen flicker or unstable working: please check if the HDMI cable has been connected tightly.
- Cannot start device: please download FW file from Rikomagic official website: <u>www.rikomagic.com</u> to refresh the device FW. Make sure all the important data has been backup before process it. If the issue still cannot be solved, please contact the distributor which you bought from.
- Keep restarting system automatically: please check if the device get enough power supply. Sometimes, external HDD cause power shortage. Please plug additional power supply for external HDD or other external devices.
- Cannot find file in SD card or open drive: Please check all the connection of the device. And make sure you have tick of SD and USB Host in "Setting"

Specifications

| Model# | MK802 IIIS | | | |
