# The operation guide of ML-7

This is a guide to instruct the user to use ML-7 properly. You can find the information to define every parameter of ML-7 at the following chapters. If you still have any questions, please send your valuable comments to <a href="mailto:sanav@sanav.com">sanav@sanav.com</a>. We shall reply you in the soonest time.

## 1. Appearance

## 2. Package Contents

- ML-7 device
- AP data cable
- Power Adapter
- A CD disk with user guide and utility

#### 3. Introduction

**ML-7** is the smallest GPS data logger in the world! With small in size, light in weigh and mini to hidden, **ML-7** is the most suitable GPS data logger for you to apply the GPS logger to difference applications such as dove tracking, photo management, sport tracking and vehicle tracking. It will definitely be your best helper on your journey.

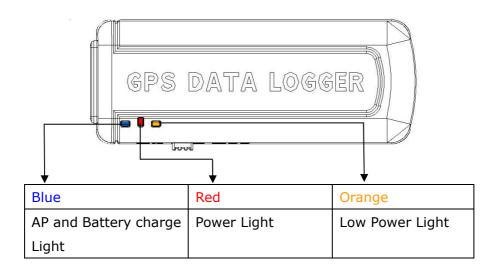

### 4. Features

- 51 independent tracking channels
- Ultra small size
- 16Mb flash memory
- The data will be just logged only when the GPS is fixed

# **5. Applications**

LED Light Status

# 6. Specifications

<b>General Descriptions</b>	Parameters
Frequency	L1 frequency; 1575.42MHz support 51 independent
	tracking channels
Sensitivity	-146dBm
Update Rate	1Hz
Acquisition	Cold Start: 36 sec.
	Warm Start: 33 sec.
	Hot Start: 1 sec.
Reacquisition	<1 sec.
Dynamics	Altitude: 18000m (max.)
	Velocity: 515 m/sec. (max.)
	Vibration: 4G (max.)
Supply Voltage	DC 5V
Power Consumption	Data Record Mode <60mA
	Power Saving Mode<0.5mA
	Tracking: 30mA
NMEA Message	NMEA0183, default 115200
	Output:GGA,GSA,GSV,RMC
	Log: RMC
Datum	Default WGS-84
Serial Interface	TTL@2.8V
Weight	12.4g
Dimension	46.9mm(L) x 18.1mm(W) x 14.9mm(H)
Battery	Include 170mA
Battery Life	5-6 Hours
Operating Temperature	0~55°C
Storage Temperature	0~55°C
Operating Humidity	<= 95%, non condensing
Accessories	USB to RS232 cable charger

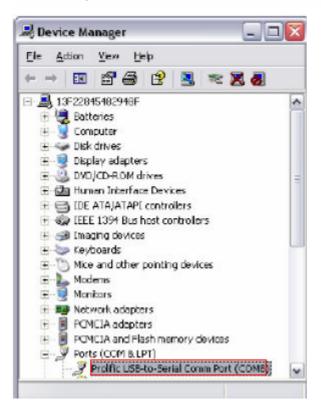

#### 7. Find out Virtual Com Port for ML-7

Before connecting the ML-7 to computer, you should find out a virtual com for the ML-7.

1. Please find the relevant USB driver for your computer OS.

- 2. Install the deriver
- Please go to the <u>device manager</u> to find out virtual com port for connecting ML-7 and computer.

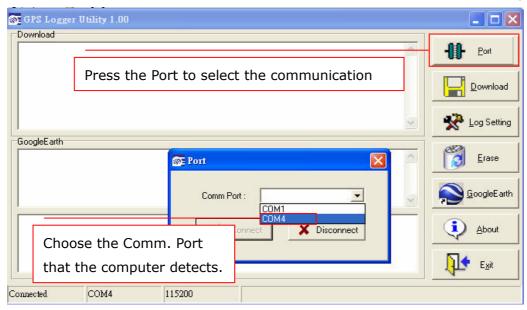

### 8. The instruction of AP utility

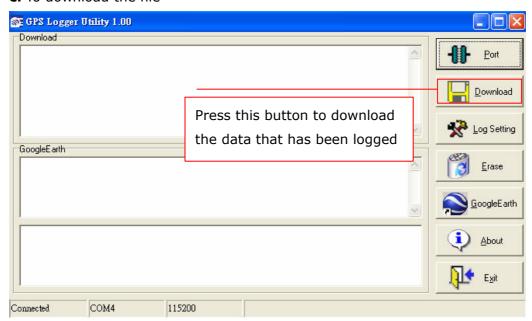

a. Download the AP utility from CD disk and install the AP to your computer.

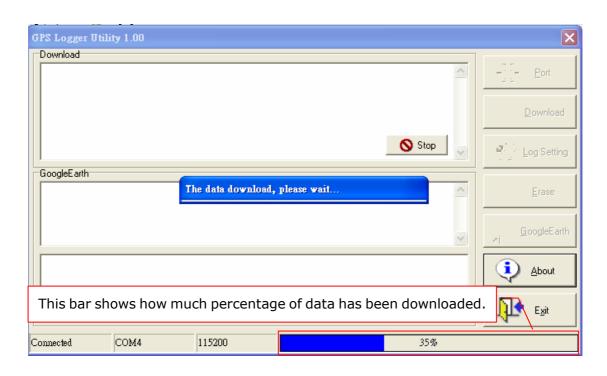

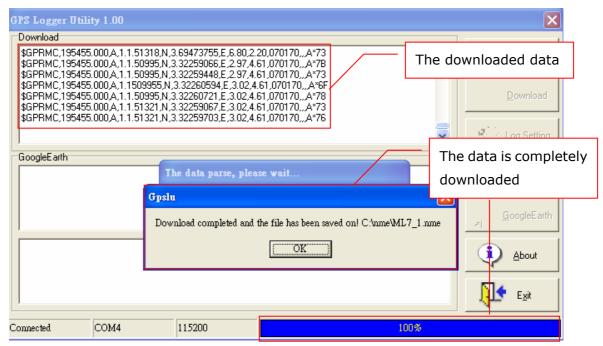

- ! Please note the install password is "demover".
- ! Please install the <u>USB driver</u> before operating the AP utility.
- **b.** When the AP is installed, make the connector between the ML-7 and computer.

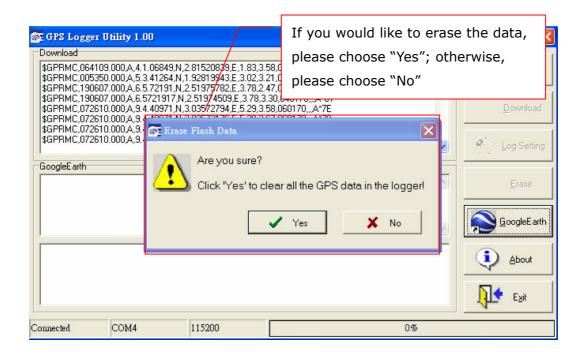

c. To download the file

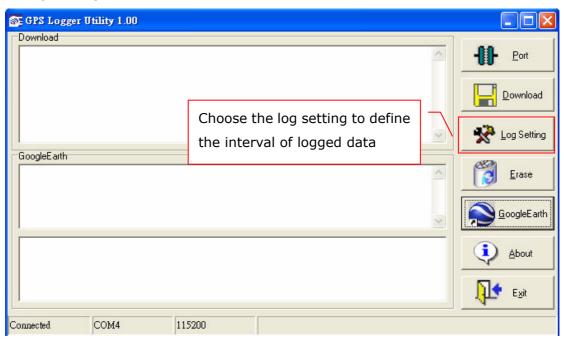

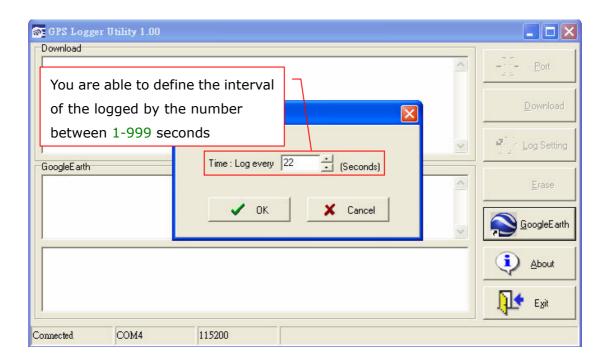

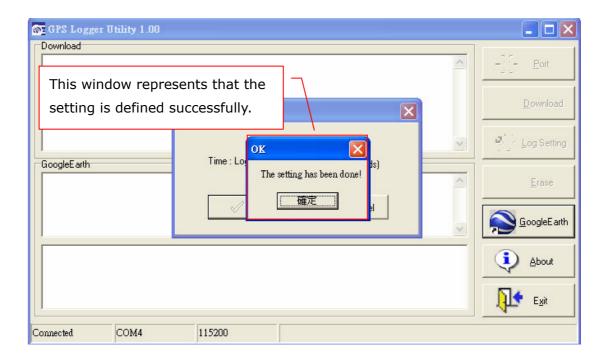

# d. Log Setting

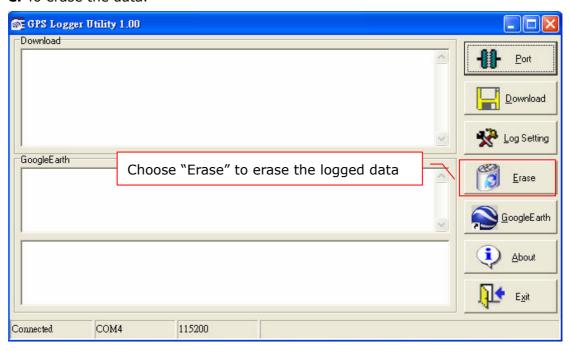

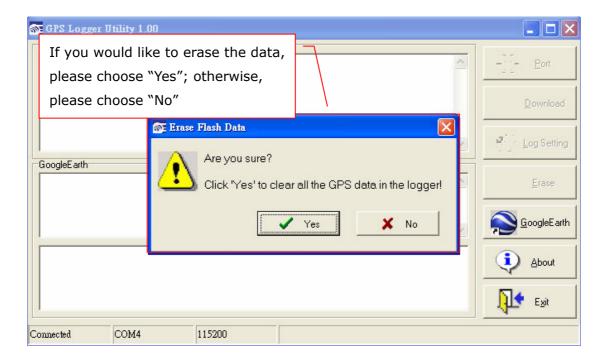

PS: The data downloaded will be fixed data only

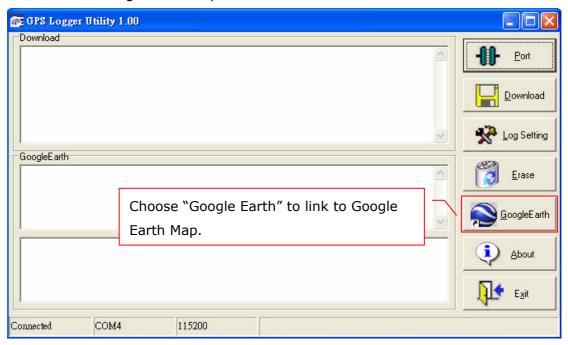

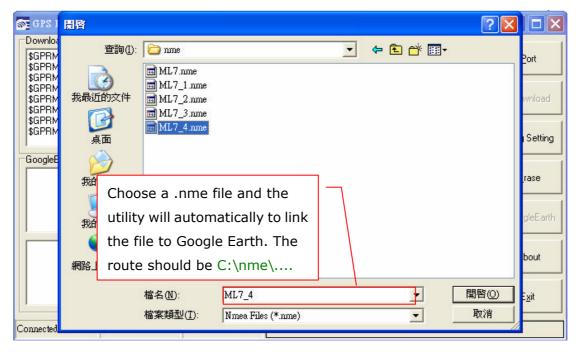

#### e. To erase the data.

#### f. Connect to Google Earth Map

You can also download the free software from Locr. Please refer to the website link as below: <a href="http://www.locr.com">http://www.locr.com</a> to locate your digital photos and other applications.

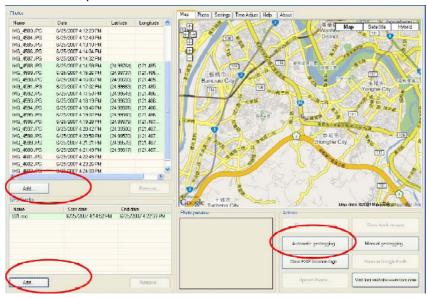

The traces will be shown on Google Map

#### Locr Demo:

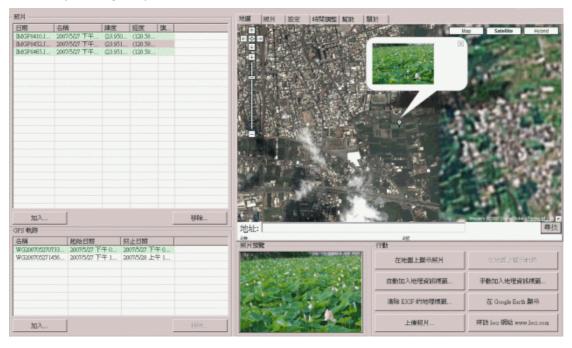

The demo window will be like following:

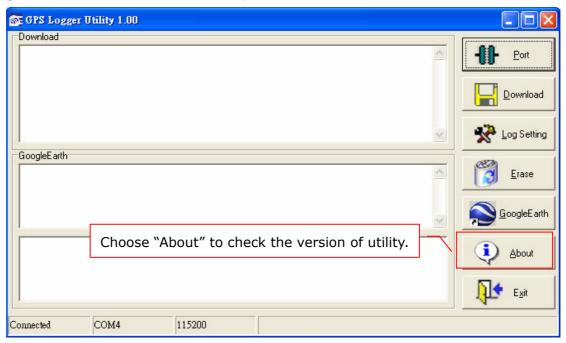

-Locate the point.

-Locate your digital photos.

**g.** To check the version of the utility.

# 8. Mechanical
